Attachments:	FY18 Title I Guidance for Principals.docx

Good evening,

Rather than attach all of the accompanying documents, I created a folder on the J-Drive in the All Staff folder entitled "Title I for Principals". For the Google fans, I will share the documents in Google as well. Attached find guidance that will assist with the upcoming meetings for stakeholders. Note that color coded categories correspond with each color coded section. This information will assist with compliance of the Family School Partnership Program. As you know there is much more to Title I. Therefore, I will be creating a CCS Title I Handbook for administrators and load it on the Administrative Handbook in Public Folders. We have found handbooks instrumental in the success of Special Education, ESOL, Behavior, RTI and other programs. The State has not yet released the updated GaDOE Title I Handbook with the new ESSA requirements. Once uploaded, I will create a CCS Title I handbook. Have a good evening!
