PARENTAL RESPONSIBILITIES

The board of education believes that the ultimate responsibility for a student’s behavior rests with his/her parents. Students are to respect constituted authority, which includes obedience to school rules, regulations, and procedures. The board anticipates that parents will be concerned and cooperative in dealing with any behavioral problems that may arise and expects that this cooperation will be made apparent to the child. Therefore, one of the most significant objectives of discipline must be to develop with the individual student the desire to exercise his rights judiciously. To realize this objective, the school reserves the right to hold parental conferences, guidance conferences with the court, and the right to request schedule changes or psychological examinations and/or treatment.

PARENT-TEACHER CONFERENCES

All conferences must be arranged through the Counseling Office and will be scheduled either during teachers’ planning or after school. Please call the counseling secretary, Ms. April Copeland, at 729-3113 to arrange a conference. Because instructional time is of the highest importance, parents may not deliver items to classrooms, visit with children, or otherwise interrupt the class. Parents are always welcome to observe classrooms with prior notification, volunteer, and eat lunch in the cafeteria with their children.

PARENT DROP-OFF OF ITEMS

The staff at CMS recognizes that from time to time, parents will need to bring items for students. All items should be taken to the attendance window, where staff members will take them to the classroom. Parents who need to meet with their children should do so off campus and by signing their child out using normal procedures.

LEAVING SCHOOL DURING SCHOOL HOURS

Early dismissals are discouraged, but if it becomes necessary for a student to leave school during the day, arrangements should be made before leaving home, and the procedure outlines below should be followed:

1. The student is to bring to the attendance window prior to 7:50 a.m. a note signed by his/her parents stating:
 - a. The time of early dismissal
 - b. The reason for early dismissal
 - c. The mode of transportation
 - d. The person providing transportation
2. No student is permitted to leave school early without signing out and being properly dismissed through the school office.
3. When a student returns to school the same day after checking out, he is to report to the attendance window with a note from a doctor or dentist, sign in, and get a pass to class.
4. To relieve the school of liability, no student will be allowed to leave the school grounds during the school hours unless he has received prior written permission from his parents as set out in No. 1 above or unless a parent comes to the school office and signs a written permission.

5. In case of illness, the student should report to the nurses' station. If the student's illness requires that he/she leave school, the parents will be called and the secretary may dismiss the student after the parents come and sign out the student.
6. No student will be allowed to leave campus with a person who is not so designated by the parent/guardian.
7. Students leaving campus **MUST** properly "sign-out" at the attendance window.
8. Students leaving campus will not be permitted to return that day unless accompanied by a parent, parent note, or a doctor/dentist appointment verification slip.
9. Parents should arrive prior to 2:15; if planning to check student out early.

STUDENTS STAYING ON SCHOOL GROUNDS AFTER SCHOOL HOURS

Students are not allowed to remain on school grounds after school hours unless they are under the direct supervision of a teacher/coach. Students who are picked up by parents must be picked up by 3:10 p.m. Parents who do not get off work until after this time must make other transportation arrangements for their children. Repeated violators will be assigned to ride a bus. Students who have been suspended from the bus must be picked up prior to 3:10 p.m. Students who stay for after-school detention must be picked up at the designated time. Unauthorized students will not be under school supervision after 3:10 p.m. and must leave the school grounds. Emergency situations would need to be approved by the school administration.

INTERSCHOLASTIC ATHLETICS

The purpose of the CMS athletic program is to provide qualified students an opportunity to participate in an extracurricular athletic activity that will foster physical skills, a sense of work and competence, a knowledge and understanding of the pleasure of sports, and the principles of fair play. However, we must remember that the athletic program is always secondary to our major task, which is academic instruction. Anytime there is a conflict between the academic program and the athletic program, the academic program always takes precedence.

Competitive Interscholastic Activities, Grades 6-12

Descriptor Code IDEA (3)

The board of education ("the board") hereby adopts this policy regulating competitive interscholastic activities.

1. Each middle and high school principal shall regulate competitive interscholastic activities in her or her school and shall ensure that all staff members adhere to the school system's athletic guidelines, this policy, and related rules of the State Board of Education. The principal may delegate responsibility for supervising one or more student activities and clubs to a member or members of the professional staff, provided such individuals must act under the principal's direction.
2. A student wishing to participate in interscholastic activities must be enrolled full-time in the school system during the semester of participation.
3. Retention of students for athletic purposes is prohibited.
4. Each principal of a school covered by this policy shall maintain documentation of adherence to the requirements of the policy. The board is responsible for regulating competitive interscholastic activities in grades 6-8, and therefore adopts the middle grade requirements set forth in State Board Rule 160-5-1-.18 (Competitive Interscholastic Activities in Grades 6-12), as to student eligibility, physical examinations, and special provision.

The physical examination form shall indicate approval for participation and be signed by a doctor of medicine or a doctor of osteopathy. The physical examination form shall include the date that the exam was performed (month, day, and year), the student's name, and the physician's signature.

PROMOTION STANDARDS AND CRITERIA

Administrative Placement of Students

Any student who does not achieve the prescribed criteria above in each grade (K-8) may be referred to an administrative placement team which will consider the student's potential for success and make recommendations for placement in non-routine promotion-retention cases. Parents are to be invited to participate in this process. It is in the best interest of the student to be placed at the beginning of the school year; however, in some cases, the decision is made at semester to place students from an elementary school to a middle school. This decision must be made with

the agreement of both the receiving and sending principals, and with parental involvement. If consensus between school and home cannot be reached, the principal's decision shall be the overriding decision.

Requirements for Grades 1-8 (Policy IHE)

This policy is undergoing revisions at the state level. You may view the complete description at the link above.

STUDENT DROP OFF AND PICK UP

If concerns or questions are not resolved, contact with the school counselor or administrator is appropriate. If parents still have concerns about the outcome or response from school administrators, they need to contact system level personnel based on the specific concerns at 912-729-5687.

TELEPHONE CALLING SYSTEMS

In an effort to provide efficient communication to parents, Camden County Schools will continue to use an automatic calling system providing the daily notification of student absences at all school levels. In elementary and middle schools, student attendance will be taken at the start of school. Phone calls indicating student absences will begin shortly after the start of school. A parent/guardian transporting a student to school and arriving after the start of school may receive a phone call indicating the student is absent. ADMINISTRATION OF MEDICINES

Schools will not administer medicine without a medical authorization form which may be completed within our PowerSchool Online Student Registration/Update link.

ANIMALS ON CAMPUS

Due to potential health concerns of students and staff, any animals brought into the schools must receive administrative approval.

COMMUNICABLE DISEASE

A student who has a dangerous communicable disease that poses a substantial threat to the health or safety of the school community may be removed from the school by the principal on the approval of the superintendent until such student no longer poses a threat. This also applies to those children who are found to have head lice, chicken pox, impetigo, unknown rashes, ringworm, and conjunctivitis.

ACCIDENTS AND INSURANCE - <http://www.markelinsurance.com>

The school is responsible only for immediate first aid. Camden County Schools does not pay any medical or hospital bill incurred as a result of an accident to a student at school. The parent or guardian is responsible for the payment of such bills. We urge you to consider the protection afforded through school insurance. You will be given information regarding various insurance plans during the first week of school. All accidents, no matter how minor, should be reported to the teacher immediately. First aid for minor injuries is available in the school clinic. In the case of severe accidents or acute illness, emergency care will be given and parents will be notified.

BICYCLE SAFETY - [O.C.G.A. 40-6-296](#) Georgia law requires children under the age of 16 to wear a helmet.

FIRE DRILLS - [Policy EBBC-R](#)

Georgia law requires schools to conduct fire drills monthly. Procedures are established at each school.

EMERGENCY CLOSINGS - - [Policy AFC](#) and [Policy AFC-R](#)

In the event of foul weather that would prevent the safe transportation of students to the schools or any other emergency situation that would affect the safety or well-being of students, or otherwise make it impractical or impossible for the normal operation of school, the superintendent, in collaboration with the board of education, will close the schools until said emergency condition no longer exists. In the case of sudden change of weather conditions, the safety of students shall be the number one priority. Decisions concerning the early or late dismissal of students will be determined by the severity of the weather conditions and surrounding circumstances. If it is determined that students will be dismissed other than at the regular time of dismissal, all efforts will be made to contact the local media. The school system requests parents stay tuned to local radio and television stations during inclement weather. Since it would be impossible to individually contact parents, the school system will make every effort to inform these stations if dismissal times are changed.

PARENT PROTOCOL DURING SCHOOL CRISIS

Camden County Schools works closely with local emergency agencies to establish protocols in the case of a crisis. Each school has developed an Emergency Operations manual in compliance with Georgia law which identifies roles and responsibilities. Parents are urged to follow all directions at the site. You will be instructed to the Family Reunification Site for child pickup. This is the only area designated for parent/student reunification. Please do not approach emergency personnel. Anyone picking up students must have proper picture identification and sign for the children's release.

SECLUSION/RESTRAINT - [Policy JGF\(2\)](#)

The State Department of Education approved Rule 160-5-1-.35 Seclusion and Restraint for All Students, Code JGF(2), O.C.G.A. 20-2-240. The use of physical restraint is prohibited in Georgia public schools and educational programs except in those situations in which the student is an immediate danger to himself or others and the student is not responsive to less intensive behavioral interventions including verbal directives or other de-escalation techniques. All physical restraint will be immediately terminated when the student is no longer an immediate danger to himself or others or if the student is observed to be in severe distress. The written policies governing the use of physical restraint are outlined in the online policy manual.

VIDEO SURVEILLANCE – [Policy JG\(1\)](#)

The Camden County Board of Education authorizes the use of video camera surveillance on school grounds and in school transportation vehicles in accordance with state policy.

The management plans show the location of asbestos containing material and assumed asbestos containing material. Anyone may review or retain a copy of these plans. Individual school plans are on file in the principal's office at each school. All plans are on file at the Administrative Office, Maintenance and Operations, Camden County Board of Education, 311 S. East Street, Kingsland, Ga. 31548.

ABSENCES AND EXCUSES – [Policy JBD](#) and [Policy JBD-R](#)

Students shall be in attendance at public schools in accordance with requirements of the compulsory school attendance law and for the number of full-length days prescribed by law.

A. In accordance with the authority granted by the compulsory school attendance law and the following guidelines, excused absences shall be defined by the policies and regulations of the school system board of education.

Children may be temporarily excused from school when

1. personally ill and attendance in school would endanger their health or the health of others;
2. in their immediate family, there is a serious illness or death which would reasonably necessitate absence from school;
3. observing special and recognized religious holidays of their faith;
4. mandated by order of governmental agencies (Examples: pre-induction physical examination for service in the armed forces or a court order);
5. conditions render attendance impossible or hazardous to student health or safety;
6. the student registers to vote (one day only);
7. attending college/career visitations according to the administrative regulations provided in JBD-R;
8. to visit with a military parent or guardian who has been called to duty for or is on leave from overseas deployment to a combat zone or combat support posting. (There will be a maximum of five school days excused for this purpose per school year.); or
9. any other absence not explicitly herein but deemed by the local board of education to have merit based on circumstances.

B. Local boards of education shall count students present when they are serving as pages of the General Assembly.

C. Local boards of education shall count foster care students present when they are required to be in court for foster care related issues.

D. Local boards of education shall count as present any student who successfully participates in the Student Teen Election Participant (STEP) program. (Maximum of two days per school year)

Absences shall not penalize students' grades; however, all make-up work must be completed.

School days missed as a result of an out of school suspension shall not count as unexcused days for the purpose of determining student truancy.

When there is a cause necessitating an individual student to be excused from school for a portion of the school day, the student shall be released from school only to his parent(s), to a person properly identified to school authorities, or upon request by letter or telephone from the parent(s).

MAKE UP WORK WHEN ABSENT - [Policy JBD](#)

Determining if a student should be allowed to make up work due to an absence from school is a complex issue. Considering that our teachers work to help our students attain success in their classrooms, teachers face a difficult problem if they are forced to penalize students for unexcused absences beyond the students' control. At the same time, it is the responsibility of our school system to prepare a student to successfully enter the workplace as the student completes his/her high school education. A segment of that preparation must focus on making responsible decisions and on being responsible for one's decisions. A valid written excuse (emails and phone calls will not be accepted) must be turned in to the student's homeroom teacher within two days of the last day of the absence or the absence will be considered unexcused. With that in mind, make-up work for student absences shall be as follows:

Grades 3-8

Students who are absent from school will be permitted to make up any work missed during the absence. They are allowed the number of days absent, plus one, to make up the missing assignments. Missing work that would lead to a failing grade should be assigned an "I" until the work has been completed.

Consequences for Excessive Absences Grades 6-8

Any student who misses more than seven (7) days (excused and/or unexcused) during a given semester may be ineligible for participation in any extracurricular activities held during the remainder of the semester in which the absences took place. Examples: athletic contests, fine arts productions and competitions, dances, prom, literary competitions, band competitions, etc.

HOSPITAL/HOMEBOUND PROGRAM – Policy JBD

Students who have medical problems that prohibit them from attending school for an extended period of time are eligible for the services of the hospital/homebound program. Under this program, the school will provide a teacher to secure assignments/materials from the student's classroom teacher and visit the student in his/her home to provide individual instruction while the student is incapacitated. While a student is being served under this program, he/she will be counted as present in all of his/her classes.

The basic requirements for eligibility in the program include:

1. student must have a certified doctor's statement indicating said student will not be able to attend school for at least ten (10) school days,
2. student's illness must not be communicable, and
3. parents must provide medical updates after the initial 4 week service.

Parents are encouraged to contact the school counselor for additional information or an application for this program.

TARDIES – DISMISSALS

Students who come to school late must report to the office and obtain a late pass. A child may be dismissed early during the school day with parental permission and school approval. The student must be signed out in the front office before leaving. An authorized adult must sign a student out of school. Picture identification is required when picking up a student early from school and may be requested when picking up car riders. To ensure the safety of all students, please limit telephoned transportation changes to emergencies or extenuating circumstances only. Calling to make afternoon transportation changes should not be common practice. Students are not allowed to sign themselves out for the day.

Progress reports and report cards shall be distributed according to the adopted school calendar.

GIFTED EDUCATION - Policy IDDD

The board of education will maintain a school program designed specifically will meet the needs of intellectually gifted students in accordance with State Board of Education Policy 160-4-2-.38. Eligibility for gifted program placement is based upon four categories for assessment (mental ability, achievement, creativity, and motivation) and the performance standards that must be achieved in each for a student to become eligible for gifted education services

INTERNET USAGE BY STUDENTS - Policy IFBG and Policy IFBG-R

IMPORTANT NOTE TO PARENTS

Due to the nature of the Internet, it is neither practical nor possible for Camden County Schools to enforce compliance with user rules at all times. Accordingly, parents and students must recognize that students will be required to make independent decisions and to use good judgment when using the Internet. Therefore, parents must communicate their expectations to their children regarding its use.

Internet access is designed for educational purposes and that the school will attempt to discourage access to objectionable materials and communication that are intended to exploit, harass, or abuse students. However, it is impossible for the school district to restrict access to all objectionable material, and the district is not responsible for materials acquired or contacts made on the network.

- A variety of inappropriate and offensive materials are available over the internet and it may be possible for students to access these materials if he/she chooses to behave irresponsibly. It is possible for undesirable or ill-intentioned individuals to communicate with students over the Internet, There is no practical means for the district to prevent this from happening, and students must take responsibility to avoid such communications if they are initiated. The staff can monitor any communications to or from my child on the Internet, however it is not possible for the school to monitor all such communications. The district maintains up to date content filters that meet all requirements of the Children's Internet Protection Act (CIPA).
- Any conduct that is in conflict with these responsibilities is inappropriate, and such behavior may result in the termination of access and possible disciplinary action.
- Google Docs for Education is for instructional purposes and students may have individual Google accounts.

STUDENT RESPONSIBILITY

Students are responsible for abiding by the Camden County Schools' Internet Acceptable Use Policy/Regulation (IFBG/IFBG-R) and guidelines. The use of the Internet and access to it is privilege, not a right:

- The Internet network must be used for appropriate educational purposes and research;
- The Internet network must only be used with the permission of designated school staff;
- Consideration of other users on the network and appropriate language use for school situations is required;
- Internet network services or equipment must not be intentionally degraded or disrupted. (This includes, but is not limited to, tampering with computer hardware or software, vandalizing data, invoking computer viruses, attempting to gain access to restricted or unauthorized network services, bypass filters, access proxy sites, or violating copyright laws.);
- Any security problems or breeches of these responsibilities must be immediately reported to appropriate school system/school staff;

- All rules and expectations regarding internet use must be followed;
- Personal information, such as addresses and telephone numbers, must not be given over the Internet.

Students have no right to privacy when using the district's Internet device or network. Any conduct that is in conflict with these responsibilities is inappropriate and may result in termination of network access and possible disciplinary action.

 - A. has met state qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
 - B. is teaching under emergency or other provisional status through which state qualification or licensing criteria have been waived, and
 - C. is teaching in the field of discipline of the certification of the teacher.

In keeping with the board's commitment and the requirement of applicable state and federal law, the board and staff will strive to remove any vestige of discrimination in employment, assignment, and promotion of personnel; in educational services and opportunities offered students; in location and use of facilities; in educational materials; and in all business transactions conducted by the board.

DRESS CODE

A student shall not dress, groom, wear, or use emblems, insignias, badges, or other symbols where the effect is distracting to other students or causes disruption or interference with the operation of the school environment. The principal or other duly authorized school official shall determine whether any particular mode of dress, apparel, grooming or use of emblems, insignias, badges, or other symbols result in such interference or disruption. The final determination concerning this policy will rest with the principal. Parents will be called and asked to bring a change of clothing to school when a student has violated the dress code.

ITEMS NOT ALLOWED AT SCHOOL

Items that are either not needed at school or are disruptive to the learning environment are to be left at home. School administrators will make the final determination on items not allowed. Cell phones provided by parents for their children are not to be used during school hours.

STUDENT REPORTING OF ACTS OF SEXUAL ABUSE OR SEXUAL MISCONDUCT

Any student (or parent or friend of a student) who has been the victim of an act of sexual abuse or sexual misconduct by a teacher, administrator or other school system employee is urged to make an oral report of the act to any teacher, counselor or administrator at his/her school.

PROGRESSIVE DISCIPLINE PROCESS

A progressive discipline process is an integral part of an effective school system. It helps correct student behavior and helps bring it within acceptable standards, ensuring a safe and productive school. The goal of progressive discipline has three components: 1. To reform the student and bring his or her conduct within acceptable standards; 2. To deter other students from engaging in similar conduct, and 3. To maintain control over the school as a whole and maintain school standards.

SCHOOL GUIDELINES FOR STUDENT BEHAVIOR

At all times in the school setting students are expected to respect themselves, the adults at the school, other students and their property, and school property. This applies to anytime the student is at school events or on school property, including the school bus. Teachers will review behavioral expectations for all areas of the school.

SUSPENSION AGREEMENT

Should a student enroll and the Camden County School System discovers that the student has been suspended (in school suspension or out of school suspension), expelled or recommended for expulsion from another school, the student is subject to being withdrawn from the Camden County School System.

STUDENT BEHAVIOR CODE - [Policy JCDA-R](#)

For the purpose of student handbooks, all policies may not be stated in their entirety. Please use the hyperlinks provided or visit the online policy manual at www.camden.k12.ga.us.

PART A - PURPOSE

The purpose of this code is to provide students in the Camden County School System an effective and safe learning environment. This has been prepared in accordance with the discipline procedures of the Camden County School System. It contains information for school personnel, students, and parents. Included is an outline of expected behaviors and the consequences relating to various violations. Expected behavior is behavior that promotes learning and encourages maturity during the school day, as well as during all school related activities. Off campus behaviors which could result in a student being criminally charged with a felony and which makes the student's continued presence at school a potential danger to persons or property at the school or which disrupts the educational process apply. Students and their parents need to know and understand this code in order to achieve these goals. Students should:

1. Participate fully in the learning process. Students need to report to school and class on time, attend all regularly scheduled classes, remain in class until excused or dismissed, pay attention to instruction, complete assignments to the best of their ability, and ask for help when needed.
2. Avoid behavior that impairs their own or other students' educational achievement. Students should know and avoid the behaviors prohibited by this code, take care of books and other instructional materials, and cooperate with others.
3. Show respect for the knowledge and authority of teachers, administrators, and other school employees. Students must obey reasonable directions, use acceptable and courteous language, avoid being rude, and follow school rules and procedures.
4. Recognize and respect the rights of other students and adults. All students should show concern for and encouragement of the educational achievements and active participation of others.

Disciplinary actions for violations of expected behaviors will include appropriate hearings and reviews. In all cases, the rights of individuals will be ensured and protected. The Camden County School System will make every reasonable effort to administer the discipline code consistently in all schools. When applicable, individualized plans (i.e. IEP, 504, and CST-Child Study Team) will be reviewed for appropriate consequences. Parent involvement through conference is the most desirable avenue for correcting behavioral problems and will be used when possible. Conferences may stand alone or may be used in conjunction with other forms of discipline. Other disciplinary actions subject to the discretion of the principal may include any or all of the following: conferences (may include student, teacher, parents, or outside agencies), detention, work assignments, suspension of privileges, corporal punishment, placement in the alternative school, OSS (1-10 days), or referral to law enforcement. The State of Georgia has written a law which encourages parents and guardians to inform their children on the consequences, including potential criminal penalties, of underage sexual conduct and crimes for which a minor can be tried as an adult.

Discipline Glossary & Law Violation Terms – see policy link for definitions - [Policy JCDA-R](#)

TEACHER REPORTING REQUIREMENT

A teacher shall have the authority, consistent with board policy, to manage his or her classroom, discipline students, and refer a student to the principal or his designee to maintain discipline in the classroom. Any teacher who has knowledge that a student has exhibited behavior which

violates the student code of conduct and repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in his/her class or with the ability of such student's classmates to learn shall file a report of such behavior with the principal or his designee. The principal and teacher shall thereafter follow the procedures set forth in Georgia law, specifically O.C.G.A. ~20-2-737 through 738. The superintendent or designee shall develop procedures as necessary for implementation of this policy and of state law.

STUDENT SUPPORT PROCESS / CHILD STUDY TEAM

Consistent with the agreement reached in Georgia State Conference of Branches of NAACP v. Georgia (Ollie Marshall Case), the board of education believes that the child study team (CST) is an effective tool for students experiencing problems in school and for assisting teachers in addressing identified problems. The CST provides services through the regular education program, including instructional planning and consultation that includes those individuals responsible for the educational well-being of the instructional process for planning educational delivery systems. Implementation of CST procedures should occur for any student experiencing problems in school before a referral is made to other supplemental or support services. The board of education defines the CST as an interdisciplinary group that shall engage in a six-step process to include: 1) identification of needs; 2) assessment, if necessary; 3) educational plan; 4) implementation; 5) follow-up and support; 6) continuous monitoring and evaluation.

The purpose of the CST is to improve the delivery of instructional services to students experiencing problems of an academic, social, or behavioral nature in school and to serve as a resource for teachers and other educators in the delivery of these services. The superintendent shall develop regulations and procedures for the implementation of this policy.

The CST is an interdisciplinary group that addresses the needs of students having problems in school. Each school shall have a minimum of one student support team and establish support team procedures. The CST shall include at a minimum the referring teacher and at least one of the following participants: principal, general education teacher, counselor, lead teacher, school psychologist, subject area specialist, media specialist, special education teacher, parent, school social worker, central office personnel, or other appropriate personnel.

Documentation of SST activities shall include the following: student's name, name of team members, meeting dates, identification of student needs, any records of assessment, educational plan and implementation results, follow-up, and as appropriate, continuous evaluation.

Guidance Services

The guidance services help provide personal opportunities and specialized staff services so that each individual can develop to the fullest of his/her abilities and capacities. The counselors are available for consultation with students, teachers, and parents concerning students' problems. Personal counseling is one of the main functions of the department. Students with problems come either voluntarily or by referral from teachers, administrators, or parents.

PROGRESSIVE DISCIPLINE PROCESS

A progressive discipline process is an integral part of an effective school system. It helps correct student behavior and helps bring it within acceptable standards, ensuring a safe and productive school. The goal of progressive discipline has three components:

1. To reform the student and bring his or her conduct within acceptable standards,
2. To deter other students from engaging in similar conduct, and
3. To maintain control over the school as a whole and maintain school standards.

STATEMENT OF STUDENT MISCONDUCT

These rules are designed to notify students as to the types and range of behaviors that are unacceptable; nevertheless, every specific variation of the prohibited conduct may not have been included. Consequently, students should expect to be disciplined for misconduct that is inappropriate. A specific rule need not be written for every conceivable variation of behavior that directly affects the orderly mission of the school. Minor offenses in the classroom, lunchroom, and hallway will be handled at the discretion of the teachers and administrators. Teachers are given authority to assign detention after and before school and during lunch and during recess in elementary schools. Teachers will also conference with students, parents, and administrators as part of disciplinary action taken against disruptive behavior.

Disciplinary Action Plan

Depending upon the age of the student, the administration will choose the age-appropriate discipline plan. Progressive discipline processes and types of consequences used may vary depending upon whether the student attends a high school, middle school, or elementary school. Student discipline is assigned based on the severity and/or frequency of code violations. Serious offenses have more severe, age-appropriate discipline. This means that a serious or major offense should result in a higher level of discipline even if the offense is the first of that kind. Repeated code violations result in the application of higher levels of discipline as determined by the principal or designee.

CONSEQUENCES OF STUDENT MISCONDUCT

Local school administrators have broad discretion to determine consequences for student misconduct at the local school level. The range of consequences for misconduct that can be assigned by a local school administrator may include without limitation, student conference, warning letter, parent conference, lunch detention, before or after school detention, Saturday school detention, bus suspension, ISS, OSS, and alternative school. A student could be referred to a disciplinary tribunal which may result in long-term suspension or expulsion, and depending upon the severity of the offense, juvenile court or law enforcement may be contacted. Administrators must acquire parental permission before administering corporal punishment.

STUDENT BEHAVIOR CODE The following rules apply while students are:

1. on the school grounds at any time;
2. off the school grounds at a school activity, function, or event;
3. enroute to and from school or to or from a school activity, function, or event, on school transportation;
4. off the school grounds while the student is in attendance at any school function, or is engaged in

5. activity that could have a direct effect on the orderly function of the school, or is otherwise subject to
6. the jurisdiction of school authorities; and/or
7. off the school grounds when the misconduct is directed at a school student or employee and is related to the victim's school affiliation or when the off-campus misconduct directly affects the safety and welfare of the school community or the orderly mission and function of the school.

RULE 1 - DISRUPTION AND INTERFERENCE WITH SCHOOL

No student shall:

- d. In any manner, by the use of violence, noise, force, coercion, threat, intimidation, fear, passive resistance, insult, or other disorderly conduct, intentionally or unintentionally cause the disruption of any lawful mission, process, or function of the school, including the teacher's ability to conduct his/her class, or engage in any such conduct for the purpose of causing the disruption or obstruction of any lawful mission process or function;
- e. Refuse to identify himself/herself upon request of any teacher, principal, superintendent, school bus driver, or other school personnel;

- h. Fail to comply with reasonable verbal or written directions, rules, regulations, or commands of teachers, student teachers, substitute teachers, paraprofessionals, principals, school bus drivers, or other authorized school personnel;
- i. Dress, groom, wear, or use emblems, insignia, badges, or other symbols where the effect thereof is to distract the attention of other students or cause disruption or interference with the operation of the school. The principal or other duly authorized school official shall determine if symbols result in such interference or disruption as to violate this rule. Rules concerning dress codes and procedures will be discussed in more detail in each school's student handbook.

RULE 2 - DAMAGE, DESTRUCTION, OR MISUSE OF SCHOOL PROPERTY OR EQUIPMENT
